

Authorization & Payment Terminal

## HecTron

The HecTron convinces with a large number of identification, authorization and payment options and counts on the integrated technology proven thousands of times. Furthermore, card acceptances can be realized with the HecTron as well.

The HecTron significantly simplifies the integration of charging points into your infrastructure!

[Data Sheet: HecTron](#) (473 KB)

### Your Benefits

- ✔ Central terminal
- ✔ Many charging points can be activated per terminal
- ✔ PINPAD - "PIN on Glass" with integrated card and contactless reader
- ✔ Wide range of identification and authorization options as well as card acceptance
- ✔ Barrier-free payment process in accordance with the charging station ordinance
- ✔ Space-saving and economical solution as wall-mounted terminal

### Typical applications

- ✔ Employer / company charging parks
- ✔ Company filling stations
- ✔ Public filling stations

### Technical Data

Dimensions	H 1600 x W 280 x D 405 mm
Weight	Approx. 65 kg
Temperature range	-25 °C to +55 °C
Protection class	IP44
Power consumption	Basic consumption: approx. 60 VA +/-10 % With heater element: approx. 210 VA +/-10 %
Relative humidity	Up to 95 % (condensation allowed)
Display/Indication	6.5 inch TFT-touch-display
Approved mains voltage	230 V AC, +10/-15 %, 50 Hz
Fuse protection	16 A slow
Area of application	Calibratable/non-calibratable filling station range, authorization of charging points (various areas)
Storage capacity	100,000 cards 10,000 transactions

### Options & Packages

Click for data sheet for components: Modem, LTE, WLAN, BT

- **router** for data transfer for communication via LTE, WLAN, DSL
- **RFID reader** for station cards
- **Illumination** LED illumination for control panel
- **USB flash drive** for manual data exchange and as e-journal
- **Digital voice output** in four different languages

## Combine with

✔ **Central Administration:** Master data and parameter administration, voucher/limit administration and product restrictions in real time, setup in your network or as SaaS solution

✔ **Authorization System easy2fuel:** Speed up the fuelling process and offer your fuelling customers contemporary benefits by using our easy2fuel app

✔ **FleetNet Routing:** Accept the fleet cards of your choice

✔ **Live Monitoring PetroLine:** Monitor status messages of the terminals in real time and quickly initiate measures in case of emergency

✔ **PetroPoint:** Automatic Vehicle and Driver Recognition

✔ **FleetNet Host:** Flexibly scale the range of your fleet card
